There are plenty of ways to add decorative touches to a guest room so that your company will feel at home. But the bed remains a constant. When it is classically beautiful, it allows you to personalize the space around it to suit your guest's taste and style.

The Vita Bed by Thos. Moser is light and lofty with a gorgeous curved footboard. The queen-size bed comes in cherry (pictured), \$5,450, or walnut, \$6,275, Thos. Moser; thosmoser.com.

“A guest room should be warm and welcoming. The bed’s Eastern shape inspired a spiritual retreat with earthy, neutral tones and rich textures that create a layered look of luxury. A mixture of art and books, straight lines and curves makes the space harmonious for a relaxing and restorative visit.”
